2. BFR-SYSTEM

The BERG Rally is equipped with the unique, patented BFR-system. BFR stands for: Break, Forward and Reverse. The BFR-system allows you to brake using the pedals, but also reverse immediately after coming to a standstill. This makes the BERG Rally super simple and easy to ride.

Safety and maximum fun are perfectly combined due to the BFR-system.

3. STABLE THANKS TO 4 WHEELS

Thanks to its four wheels, the BERG Rally has excellent stability. They allow you to corner quickly, sharply and safely. No tipping point occurs, so tipping over is virtually impossible.

The BERG Rally has a swing axle. This creates a swinging motion of the front wheels as a result of which bumps in the road are absorbed. Consequently, the BERG Rally stays firmly on the ground. A safe solution!

4. PNEUMATIC TYRES

The BERG Rally has pneumatic tyres. They give you a smoother ride because these tyres have less rolling resistance and make pedalling lighter. This means that you will also be able to go faster.

Pneumatic tyres are more durable than solid rubber tyres. These tyres give you an extra comfortable ride on the BERG Rally.
